

[illegible]

The diagram illustrates the internal circuitry of the BLM15BA330SN1 component. It features a power supply section at the top with SPK+ and SPK- inputs connected to a BLM15BA330SN1 component, which is also connected to SPK3 and SPK4 outputs. Below this, a speaker output section shows a BLM15BA330SN1 component connected to a MIC100 speaker, with inputs for MIC+ and MIC- and outputs for MIC213-420.
